

English

We will be moving on by using our Drawing Club approach this term, but looking at how we can start to add extra details to our writing to make it even more exciting for our readers.

Our texts this term include Giraffes Can't Dance, traditional tales such as The Three Little Pigs and some old cartoons such as "The Racoons". We're enjoying our adventure to "Button Moon" this week so far!

Maths

We are following the White Rose Mastery Maths structure. This term we will be looking at place value to 20 and then moving to using our knowledge to help us with addition and subtraction within 20.

Each week, we will continue with our mastering number work – focusing this term on the composition of numbers.

Art

In our art lessons, we are looking the different colours on a colour wheel and how we can mix them with paints. We will paint and print with paints before looking at the work of Clarice Cliff and painting our own paper plates in her style.

Y1 Spring Term 1

What has paws, claws and whiskers?

Welcome back everyone!

An exciting half term ahead – the children have made a great start this week and have settled back into our routines brilliantly.

In a few weeks we have an exciting morning lined up on when the animal man is visiting with some of his animals for us to meet!

As always, do get in touch in if there is anything I can help with.

Mrs Kelly

RE

We are learning what makes places sacred in our RE lessons and looking at different examples of these.

Science

This term we will begin our work on animals including humans.

We will be working scientifically – asking ourselves simple questions and seeing how they can be answered.

We will look at how we can group animals and sort them into the groups of mammals, fish, birds, reptiles and amphibians.

PSHE

Our Jigsaw topic this term will be called "Dreams and Goals". Mrs Ellis will be busy with the children thinking about what they are proud of and setting themselves challenges to achieve this year.

PE

This term, our PE will be on Wednesdays as we have Zoe coming in to work with us for our 5/60 sessions. We are also planning to have a trip to a mini tennis session next month – more details to follow shortly on that one.

Computing

In computing we are having fun learning about the beebots. We will look at how we can program them to make them move where we want them to go!
